

We are concerned that this proceeding regarding broadcast localism will negatively affect us and our community. We are avid listeners to K-LOVE radio, which provides us with wholesome programming for the entire family. In our market, there is limited programming that is similar to what K-LOVE provides and if K-LOVE were to be displaced by an LPFM broadcaster, there is no guarantee that similar positive and encouraging programming would be offered. The service that K-LOVE provides is certainly in the public interest, or the wholesome values has a positive and encouraging impact on the community. The airwaves are full of content that is definitely unwholesome, so to have K-LOVE on the air is something worth preserving.

Therefore, we strongly oppose K-LOVE to be displaced by an LPFM broadcaster.
